PROFESSIONAL SUMMARY

MCA student with hands-on experience in Python, SQL, Excel, Tableau, and Data Visualization. Skilled in data cleaning, exploratory data analysis, dashboard creation, and reporting. Seeking an entry-level Data Analyst / Analyst role where I can apply analytical and problem-solving skills to support data-driven business decisions.

TECHNICAL SKILLS

- **Programming:** Python
- **Data Analysis:** Pandas, NumPy, Excel
- **Data Visualization:** Tableau, Matplotlib
- **Database:** MySQL
- **Web Technologies:** HTML, CSS, Django
- **Tools:** Git, GitHub, MS Office

PROJECTS

Data Visualization & Machine Learning Approaches | Tech Stack: Python, Pandas, NumPy, Matplotlib, Excel

- Analyzed a real-world supermarket sales dataset using Python and Excel.
- Performed data cleaning, transformation, and exploratory data analysis (EDA).
- Built visualizations to identify sales trends and business patterns.
- Applied basic machine learning concepts to interpret data and generate insights.

Business Intelligence Dashboard with Tableau | Tech Stack: Tableau, Excel

- Built an interactive business dashboard for an online retail dataset.
- Created charts for revenue trends, customer distribution, and key performance metrics.
- Transformed raw Excel data into clear, decision-friendly visual insights.
- Presented findings using effective data storytelling and dashboard design principles.

EDUCATION

Degree / Qualification	Institution / Board	Year
Master of Computer Applications (MCA)	K.M.C.L.U	2024 – Present
Bachelor of Arts (B.A.)	M.G.K.V.P University	2020 – 2023
Class 12th – Science Stream	U.P. Board	2020
Class 10th	U.P. Board	2017

CERTIFICATION

Full Stack Developer Certificate — Issued by Make Career Academy, Hazratganj, Lucknow | Certified by Jain University | Issued: September 2022

STRENGTHS

- Analytical Thinking
- Problem Solving
- Quick Learner
- Communication & Teamwork
